

高品质水管

A3-003

应用:

■ 一款最高级别的清洗软管。卓越的定能，寿命长，耐老化，最大程度发挥软管的使用性。适用于建筑业，园艺或者机械设备，仪器及诸多应用。

技术参数:

- 内层: 黑色, 光滑, 均匀EPDM内层
- 增强层: 合成纤维
- 外层: 黑色CR材质, 耐油, 润滑脂及化学品
非常柔软, 耐碾压, 耐臭氧, 环境, UV
- 工作温度: -30°C至+100°C 用可以用+130°C蒸汽清洗 (最多30分钟)

Applications:

■ The high-grade water- and cleaning hose is a trademarked article of highest quality. A tool with unsurpassed characteristics, robust, nearly indestructible, long lasting and of utmost use. It is the right hose for ambitious applications. A product that meets all requirements for the building industry, for landscape gardening or for machines, apparatus, containers and many other applications.

Technical description:

- Tube: Black, non-porous, smooth, EPDM lining.
- Reinforcements: Synthetic fiber.
- Cover: CR, resistant to oil, grease and chemicals. Non-buckling, shock-proof, can be overrun. Resistant to ozone and UV.
- Temperature range :from - 30°C up to +100°C, can also be steamed up to 130°C (max. 30 minutes).

高品质水管 GOLD SNAKE
